DETAILED ACTION

Allowable Subject Matter

1. Claims 2, 4-11, 13, and 15-22 are allowed.
2. The following is an Examiner's Statement of Reasons for Allowance:

In interpreting the claims, in light of the specification and the applicant's amendments filed June 25th, 2008, the Examiner finds the claimed invention to be patentably distinct from the prior art of record. The prior art does not teach all of the limitations of the independent claims in combination with the other elements presented.

The prior art of record teaches the use of content address storage systems that includes creating a content address that includes time information related to when the data was written to the storage system proximate in time (Tolia, see, e.g., section 3 file recipe discussion).

However, as per claims 2, 4-11, 13, and 15-22, the prior art fails to teach a method of processing data in a content addressable storage system, where the content addresses contain an indication of which units of data are written to the storage system proximate in time, wherein for at least one of the units of data to be written a hash is created using a portion of the data and adding the indication to the hash to create the content address, where the content address is used to access the units of data in the storage system but wherein the first information is used as the content address in

determining where within the storage system to store one of the units of data. These limitations distinguish the claimed invention from the prior art of record when taken in the environment of the full claim language.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nicholas Taylor whose telephone number is (571) 272-3889. The examiner can normally be reached on Monday-Friday, 8:00am to 5:30pm, with alternating Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rupal Dharia can be reached on (571) 272-3880. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
